

HTML-ONLY COLLEGE MANAGEMENT WEBSITE

Project Title

College Management Website

Technology Restriction

Create the complete website using **HTML only**.

Do **not** use:

- CSS
- JavaScript
- Bootstrap
- Tailwind CSS
- React
- Any external UI framework

The main purpose of this project is to practice and demonstrate HTML concepts.

WEBSITE PAGES

Create the following pages:

```
index.html
about.html
courses.html
faculty.html
facilities.html
admission.html
contact.html
```

The website must contain a common navigation menu that allows the user to move between all pages.

1. HOME PAGE – `index.html`

Page Purpose

The Home page should provide an introduction to the college and give visitors quick access to important sections of the website.

Required Sections

1. College Header

Display:

- College logo
- College name
- College tagline
- College address

Example:

```
ABC Institute of Technology
"Knowledge • Innovation • Excellence"
Ahmedabad, Gujarat
```

Use:

- `<header>`
 - `<h1>`
 - `<p>`
 - `<img>`
-

2. Navigation Menu

Create navigation links to:

```
Home
About
Courses
Faculty
Facilities
Admission
Contact
```

Use:

```
<nav>
  <a href="index.html">Home</a>
  <a href="about.html">About</a>
  <a href="courses.html">Courses</a>
  <a href="faculty.html">Faculty</a>
  <a href="facilities.html">Facilities</a>
  <a href="admission.html">Admission</a>
  <a href="contact.html">Contact</a>
</nav>
```

3. Hero / Welcome Section

Create a welcome section containing:

- College name
- Short introduction
- College image
- "Apply Now" link
- "View Courses" link

Example:

```
Welcome to ABC Institute of Technology

Empowering students through quality education,
innovation and practical learning.
```

The buttons should navigate to:

```
Apply Now → admission.html
View Courses → courses.html
```

4. About College Section

Write a short introduction containing:

- Establishment year
- Location
- Vision
- Mission
- Number of students
- Number of faculty members

5. Why Choose Us?

Create an ordered or unordered list containing at least 6 points.

Example:

```
Experienced Faculty
Modern Laboratories
Industry-Oriented Courses
Library Facilities
```

Placement Assistance
Sports Facilities

6. Quick Statistics

Create a table showing:

Information	Number
Students	2500+
Faculty	120+
Courses	15+
Laboratories	20+
Placement Partners	100+

7. College Image Gallery

Display at least 4 images:

- College Building
- Campus
- Laboratory
- Library

Use:

```
<figure>  
    
  <figcaption>College Campus</figcaption>  
</figure>
```

8. Important Links

Add links to:

- Admission
- Courses
- Faculty
- Contact
- College Brochure

The brochure link should use the `download` attribute.

9. Footer

Include:

- College name
- Address
- Phone
- Email
- Copyright
- Quick links

Use:

```
<footer>
```

2. 🏠 ABOUT PAGE – `about.html`

Page Purpose

Provide detailed information about the college.

Required Sections

1. About the College

Write at least 2–3 paragraphs explaining:

- History
- Establishment
- Educational philosophy
- Achievements

Use:

```
<h1>
<h2>
<p>
<strong>
<em>
```

2. Vision

Create a separate section explaining the college vision.

3. Mission

Create a list containing at least 5 mission points.

4. Principal's Message

Create a section containing:

- Principal image
- Principal name
- Designation
- Message

Use:

```
<figure>
  <img>
  <figcaption>
</figure>
```

5. College Timeline

Create a table:

Year	Achievement
2005	College Established
2010	New Campus
2015	New Engineering Courses
2020	Digital Learning Started
2025	20th Anniversary

6. Accreditation & Recognition

Display information about:

- University affiliation
- Accreditation
- Government approval
- Awards

Use:

```
<ul>
<li>
```

3. COURSES PAGE – `courses.html`

Page Purpose

Display all courses offered by the college.

Required Sections

1. Course Introduction

Explain the academic programs offered by the college.

2. Undergraduate Courses

Create a table containing:

Course	Duration	Eligibility	Intake	Fees
B.Tech IT	4 Years	12th Science	120	₹90,000
B.Tech CSE	4 Years	12th Science	120	₹90,000
BCA	3 Years	12th Pass	100	₹60,000

3. Postgraduate Courses

Create another table.

Include:

- Course
 - Duration
 - Eligibility
 - Intake
 - Fees
-

4. Course Details

For each major course, provide:

```
Course Name
Duration
Eligibility
Subjects
Career Opportunities
```

Use headings and lists.

5. Semester Subjects

Create a table showing subjects.

Example:

Semester	Subject 1	Subject 2	Subject 3	Subject 4
Semester 1	C Programming	Mathematics	Physics	English
Semester 2	C++	Mathematics	DBMS	Web Technology

6. Course Syllabus

Provide links to syllabus documents.

Example:

```
Download BCA Syllabus
Download B.Tech CSE Syllabus
Download B.Tech IT Syllabus
```

Use the `download` attribute.

7. Course Comparison

Create a comparison table between at least 3 courses.

4. FACULTY PAGE – `faculty.html`

Page Purpose

Display faculty members and their academic information.

Required Sections

1. Faculty Introduction

Write a short introduction.

2. Faculty Table

Create a table containing:

Faculty Name	Department	Designation	Qualification	Experience
Dr. Amit Shah	CSE	Professor	Ph.D.	15 Years
Prof. Neha Patel	IT	Assistant Professor	M.Tech	8 Years
Dr. Raj Mehta	Science	Professor	Ph.D.	12 Years

3. Faculty Profiles

Create individual sections for at least 5 faculty members.

Each profile must contain:

- Photo
 - Name
 - Department
 - Designation
 - Qualification
 - Experience
 - Email
-

4. Department List

Create a list of departments:

```
Computer Science
Information Technology
Mechanical Engineering
Civil Engineering
Electrical Engineering
Science
Management
```

5. Faculty Contact Links

Create email links using:

```
<a href="mailto:faculty@example.com">
```

5. FACILITIES PAGE – facilities.html

Page Purpose

Display all major facilities available at the college.

Required Facilities

Create sections for:

1. Library
 2. Computer Laboratory
 3. Science Laboratory
 4. Auditorium
 5. Sports Ground
 6. Cafeteria
 7. Hostel
 8. Transportation
 9. Wi-Fi Campus
 10. Seminar Hall
-

Facility Section Format

Each facility should contain:

- Facility name
- Image
- Description
- Available facilities
- Timings

Example:

Central Library

Our library contains more than 50,000 books and provides digital learning resources.

Opening Hours:

Monday – Saturday

8:00 AM – 8:00 PM

Use:

```
<figure>
<img>
<figcaption>
```

Facility Timetable

Create a table:

Facility	Opening Time	Closing Time	Working Days
Library	8:00 AM	8:00 PM	Mon-Sat
Laboratory	9:00 AM	6:00 PM	Mon-Sat
Gym	6:00 AM	9:00 PM	Mon-Sun

Virtual Campus

Use an `<iframe>` to embed:

- Google Maps
- YouTube college video
- Virtual campus tour

Example:

```
<iframe
  src="https://www.google.com/maps/embed?...">
</iframe>
```

6. ADMISSION PAGE – admission.html

Page Purpose

Create a complete student admission form.

This is one of the most important pages of the project.

Admission Form

Create a form containing the following sections.

A. Personal Information

Fields:

Full Name
Date of Birth
Gender
Age
Email
Mobile Number

Use appropriate HTML5 input types.

Example:

```
<input type="text">  
<input type="date">  
<input type="email">  
<input type="tel">
```

B. Address Information

Fields:

Address
City
State
Pincode
Country

Use:

```
<textarea>  
<select>  
<option>
```

C. Academic Information

Fields:

10th Percentage
12th Percentage
Passing Year
School Name
Board

D. Course Selection

Create a dropdown:

Select Course
B.Tech CSE
B.Tech IT
BCA
BBA
MCA
MBA

E. Subject / Specialization

Create appropriate options based on the selected course.

F. Gender

Use radio buttons:

Male
Female
Other

G. Hobbies / Activities

Use checkboxes:

Sports
Music
Dance
Coding
Reading

Photography
Other

H. Upload Documents

Allow students to upload:

Passport Photo
10th Marksheet
12th Marksheet
Aadhar / ID Proof

Use:

```
<input type="file">
```

I. Hostel Requirement

Use radio buttons:

Yes
No

J. Transportation

Use:

College Bus
Own Vehicle
Public Transport
Not Required

K. Preferred Contact Time

Use:

```
<input type="time">
```

L. Website / Portfolio

Allow the student to enter a personal website or portfolio.

Use:

```
<input type="url">
```

M. Application Number

Create an appropriate input field.

N. Terms & Conditions

Use a checkbox:

```
I agree to the college terms and conditions.
```

O. Form Buttons

Create:

```
Submit  
Reset
```

Use:

```
<input type="submit">  
<input type="reset">
```

HTML5 VALIDATION

The admission form must demonstrate HTML validation attributes such as:

```
required  
placeholder  
min
```

```
max  
minlength  
maxlength  
pattern
```

Use appropriate validation for important fields.

7. CONTACT PAGE – `contact.html`

Page Purpose

Provide complete contact information.

Required Sections

1. College Address

Display:

```
ABC Institute of Technology  
Ahmedabad, Gujarat  
India
```

Use:

```
<address>
```

2. Contact Information

Display:

```
Phone  
Email  
Website  
Office Hours
```

Create clickable links:

tel:
mailto:

3. Contact Form

Create a form containing:

Name
Email
Phone
Subject
Department
Message
Preferred Contact Method

4. Department Dropdown

Include:

Admission Office
Computer Department
IT Department
Accounts Department
Library
Hostel Department
Placement Department

5. Contact Method

Use radio buttons:

Email
Phone
WhatsApp

6. Message

Use:

```
<textarea>
```

7. Submit & Reset

Include:

```
Submit  
Reset
```

8. GOOGLE MAP / LOCATION

On the Contact page, embed the college location using an iframe.

Example:

```
<iframe  
  src="GOOGLE_MAP_EMBED_URL"  
  width="600"  
  height="450">  
</iframe>
```

9. COLLEGE MULTIMEDIA

At least one page must contain multimedia.

Include:

Video

```
<video controls>  
  <source src="college-tour.mp4" type="video/mp4">  
</video>
```

Audio

```
<audio controls>  
  <source src="college-audio.mp3" type="audio/mpeg">
```

</audio>

The multimedia can be placed on:

Home
or
Facilities

10. WEBSITE NAVIGATION

Every page must contain navigation to all major pages.

Required navigation:

Home
About
Courses
Faculty
Facilities
Admission
Contact

Also implement:

Internal Page Links

Example:

Home → Courses
Courses → Admission
Admission → Contact

External Links

Add links to:

University Website
UGC
AICTE
Government Education Portal

Use:

```
target="_blank"
```

where appropriate.

11. HTML SEMANTIC ELEMENTS

The project must demonstrate the use of semantic HTML elements.

Use:

```
<header>
<nav>
<main>
<section>
<article>
<aside>
<footer>
<figure>
<figcaption>
<address>
```

12. ADDITIONAL HTML ELEMENTS

The project should also demonstrate the following where appropriate:

```
<h1> to <h6>
<p>
<br>
<hr>
<strong>
<b>
<em>
<i>
<mark>
<small>
<del>
<ins>
<sub>
<sup>
<ul>
<ol>
<li>
```

```
<a>
<img>
<table>
<tr>
<th>
<td>
<form>
<label>
<input>
textarea
select
option
fieldset
legend
button
iframe
audio
video
figure
figcaption
details
summary
abbr
blockquote
q
cite
time
address
```

13. DETAILS & SUMMARY

At least one page should contain expandable information using:

```
<details>
  <summary>Read More</summary>

  <p>
    Additional information about the college...
  </p>
</details>
```

Use this for:

```
Admission FAQs
Course Details
```

College Rules
Hostel Rules

? 14. ADMISSION FAQ

On the Admission page, create an FAQ section using `<details>` and `<summary>`.

Questions can include:

What is the admission process?

What documents are required?

What are the eligibility criteria?

What is the fee structure?

Is hostel accommodation available?

Is transportation available?

15. FINAL WEBSITE STRUCTURE

The final project should look like:

```
College Management Website
|
|-- Home
|   |-- College Header
|   |-- Navigation
|   |-- Welcome Section
|   |-- About College
|   |-- Why Choose Us
|   |-- Statistics
|   |-- Image Gallery
|   |-- Footer
|
|-- About
|   |-- College History
|   |-- Vision
|   |-- Mission
|   |-- Principal Message
|   |-- Timeline
|   |-- Achievements
```

RECOMMENDED FOLDER STRUCTURE

Create the following folder structure:

```
college-management/  
├── index.html  
├── about.html  
├── courses.html  
├── faculty.html  
├── facilities.html  
├── admission.html  
├── contact.html  
├── images/  
│   ├── college.jpg  
│   ├── campus.jpg  
│   ├── principal.jpg  
│   ├── library.jpg  
│   ├── laboratory.jpg  
│   ├── auditorium.jpg  
│   └── faculty/  
├── videos/  
│   └── college-tour.mp4  
├── audio/  
│   └── college-audio.mp3  
└── documents/  
    ├── college-brochure.pdf  
    ├── cse-syllabus.pdf  
    └── it-syllabus.pdf
```

IMPORTANT RESTRICTIONS

For this project:

- ✗ No CSS
- ✗ No JavaScript
- ✗ No Bootstrap
- ✗ No Tailwind
- ✗ No React
- ✗ No external UI frameworks
- ✗ No backend
- ✗ No database

Use **HTML only**.

MAIN OBJECTIVE

The completed website should demonstrate that the student understands:

- HTML Document Structure
- Semantic HTML
- Headings
- Paragraphs
- Text Formatting
- Links
- Images
- Lists
- Tables
- Forms
- HTML5 Input Types
- Form Validation
- Radio Buttons
- Checkboxes
- Dropdowns
- Textarea
- File Upload
- Fieldset & Legend
- Audio
- Video
- Iframe
- Google Maps
- Internal Navigation
- External Links
- Download Links
- Figure & Figcaption
- Details & Summary
- Email Links
- Telephone Links
- HTML Entities

FINAL REQUIREMENT

The website should feel like a **real college website**, not a collection of separate HTML exercises.

All pages must be connected through navigation.

A user should be able to start from:

Home

and navigate through:

About
→ Courses
→ Faculty
→ Facilities
→ Admission
→ Contact

without using the browser's address bar.

The project must contain meaningful college-related content, properly structured HTML, working navigation, tables, forms, images, multimedia, downloads and iframe content.
